Mechanisms and Handsets

**Dual Tilt
In Space**

The smooth dual-operated chair allows the backrest and footrest to recline unity at a fixed angle. In addition to this, the tilt motion elevates your feet above your hips for added comfort.

Deluxe

This mechanism has two individual motors. One motor powers the back movement, and the other powers the leg motion. These independent movements allow you to elevate the footrest whilst still in a seated upright position.

**Premier Rise
and Recline**

This mechanism has four individual motors. These motors work independently within the headrest, backrest, leg rest and adjustable lumbar with an additional 2" footrest extension.

***Exclusive to Sitting Pretty**

Premier Plus

This mechanism gives you everything you need from the Premier mechanism, and more! It has four individual motors that work independently within the headrest, backrest, leg rest and adjustable lumbar with an additional 2" footrest extension. However, the Premier Plus mechanism simultaneous tilts in space movement, two programmable positions, as well as built-in heat technology.

***Exclusive to Sitting Pretty**

Harmony Single Motion

This mechanism provides a wonderfully smooth, silent recline unlike any other “single” motor chair. It comes with higher foot elevation, as well as two pre-set positions for instant comfort at a push of a button.

Harmony Dual Motion

The smooth, silent dual-operated chair which is good for circulation has independent back and leg movement. The tilt motion elevates your feet above your hips. The added feature of two preset positions allows you to enjoy your favourite posture at the push of a button.

Manual

Our manual recliners are simple and easy to operate. A gentle pull on the clip releases the footplate to elevate your feet into a comfortable position. You can gently push back on the arms of the chair to further recline the back rest to a near horizontal position.

Zero Wall

The Zero wall mechanism is ideal for smaller rooms. Unlike the other mechanisms, the reclining position comes from the chair moving forward on its internal track, offering a space saving alternative. This mechanism allows the chair to be situated just 5 inches from the wall.

VivaLIFT![™]
POWER RECLINERS
By Pride® Mobility Products Corp.

If you're searching for a power lift recliner that has both style and performance at a reasonable price, look no further than Prides Vivalift Recliners. These recliners are designed and manufactured internationally with the aim to be a functional and fashionable part of your home décor. Each lift recliner is built for quality and reliability, so you can enjoy it worry-free at a modest price.

Elevate Your Lifestyle!

Weymouth

The Weymouth dual motor lift chair with a powered headrest and lumbar puts you in complete control of your comfort. Not only does this allow you to independently adjust the backrest and footrest, it gives you power to adjust the headrest which is great for supporting your neck and shoulders. The powered lumbar support offers vital pressure relief to a key part of your back, helping give you the ultimate relaxation and comfort you deserve.
