

Illusion

The lightest full suspension in the world

- Complete chassis made from ultra-lightweight aircraft-grade aluminium
- All-round suspension giving exceptional comfort
- Designed for lifting in and out of the car boot with ease
- Very lightweight lithium battery pack available in three sizes
- Easy to take apart and reassemble in seconds

Shown in Capri Blue Finish

Illusion

The Illusion is a revolutionary lightweight but strong scooter which **can be disassembled** into parts for easy lifting, the heaviest part weighing less than **10kg** (similar to a bag of shopping) The complete chassis is manufactured from **ultra-lightweight aircraft-grade aluminium** for optimum durability ensuring top quality. Taking around **30 seconds to reassemble** it ensures you won't be wasting any of your valuable time. It also features an **ultra-lightweight lithium battery** that is both accessible and simple to remove so you can easily move it to a preferred charging location. A **second charging port** is located in the tiller which allows for easy access when disassembling is not needed. The scooter also has a **powerful LED light** for lower light driving conditions. The **tiller is height adjustable** and the **shallow floor plate** helps provide exceptional legroom even for the taller users. Furthermore, Illusion is also **available with three Lithium sizes, a standard, an endurance and epic battery pack** allowing you to double or triple your travel distance for those longer journeys. Not only super light, the unique shrouding is of **contemporary design**. The advanced engineered **full front and rear suspension** complete with the **comfortable and spacious deep foam covered seat** gives a fantastically enjoyable driving experience. Together with the **secure-grip delta handlebar**, which gives you full control over manoeuvring the scooter, it is incredibly easy to use.

Specifications
